(920)-788-7399 (FAX: 788-7385)

January 22, 2019

To whom it may concern:

The Little Chute Fire Department is asking for your help. With the recent snow accumulation and with more snow on the horizon, if you have a fire hydrant on or near your property or place of business please make sure to keep it free of snow, ice or any other debris that might obstruct its view and operation (business owners if you have a company taking care of your snow removal please notify them of your fire hydrant location & arrange for them to clear them). Also if you happen to live near an elderly or handicapped person please check to see if you can assist them with this as well. In the event of a fire your cooperation will save time for the firefighters.

Working together as a community.

Thank you,

Mark Jansen

Chief

Little Chute Fire Department
